## INTRODUCTION

1965 edition

The 1965 edition of the INDEX OF GRADUATE THESES IN BAPTIST THEOLOGICAL SEMINARIES is a composite index to theses completed in the seminaries of the Southern Baptist Convention 1963-1965. This current volume is the first supplement issued since publication of the original index in 1963. The first edition included all theses completed from the beginning in 1894 through 1962. The Historical Commission staff prepared the Index from data provided by the libraries of Golden Gate Baptist Theological Seminary, New Orleans Baptist Theological Seminary, Southeastern Baptist Theological Seminary, Southern Baptist Theological Seminary, and Southwestern Baptist Theological Seminary of the Southern Baptist Convention. Central Baptist Theological Seminary, included in the 1963 Index, no longer offers graduate study. The Commission expresses deep appreciation to the librarians and their staff members for their splendid co-operation in this venture. This volume is divided into three sections.

SECTION I is a complete listing of all theses approved by the above institutions, 1963-1965. The theses are arranged according to the major field of study in which they were written. Within the major field categories, theses are grouped by institutions and by title. Each separate entry contains the following data: title, author, date, pages (when available), and degree awarded (data not available to distinguish between Th.D. and Ph.D. degrees of Southern Seminary; all doctoral degrees in theology of that institution are denoted as the Th.D. degree). The theses are numbered consecutively as they appear in Section I. These numbers provide a key to the author and subject indexes in Sections II and III.

SECTION II is an author index. Each name is followed by the thesis number, as a guide to the detailed entry in Section I.

SECTION III is a general subject index to the theses. The numbers following each subject entry refer the reader to the theses in Section I relative to that particular subject.

In spite of efforts to present an accurate and complete index, errors may have occurred for which the compiler expresses sincere regret. The correction of errors detected by readers of this volume is solicited.

Lynn E. May, Jr.
