Sept. 26th, 1910

Dear Dr. Willingham:-

Today we received your letter concerning the money for Mr. Buldain. According to your letter, you are laboring under a wrong impression about what the money is for. You say the money was granted for a house for him. We want the money for his salary and not for a house. He is a valuable help to Mr. Davis and so far has not received enough to live on.

Now comes the object of this letter. For some time Mr. Davis has been nearing a nervous break-down. He has been sick for two weeks but has managed to keep up until the last three days. He has been a very sick man and the Dr. S says he has congestion of the brain and that he must take a lay-off from work for a few weeks. Will you please give him permission to go to the States for a month? Let me hear from you at once as I want him to go as soon as he can travel.

With best wishes, I remain,

yours in the work,
Mrs. J. E. Davis
