Dr. J. M. Frost,
Nashville, Tenn.

Dear Brother:-

I do not know what is the matter with Brother Pitt these days, but your and my heads are gray enough to appreciate the reasoning of the old sister at the love feast, who said: "Brethren and sisters, I have a great many troubles and trials, but they don't trouble me much."

Kansas City is the place and I believe we will go there unless all the East combines against us and I don't believe they will. I believe Mr. Levering however must be made president. Baltimore wants the Convention, the Training School and the Presidency. I believe the Convention will go to Kansas City and the Training School to Louisville and so the Presidency should go to the East. Love of Little Rock wrote me about Eagle's being continued on the ground of the fight out there but I wrote him plainly saying that the East was asking a great deal and if it didn't get the Presidency it wouldn't get anything. I am anxious for Stephens and have stood for him but I expect to tell him that he is young enough to wait.

Yours sincerely,

J. N. Prestridge.
