Dear Mr. Frost: I have just read the Index article and editorial, & enjoyed and commended both without reservation. I made an editorial for this week on the article, quoting from it; & I quote the editorial in "Note & Comment" & endorse Mr. Bell's suggestion. You & Mr. Burman could do a good work in making that history. You see you have gotten your hand in in book writing, & you might as well go on. I think Masters wants to write a history of the Home Board, which if he should do would not hurt this

larger project.

The Lord brought you to the Kingdom for this Sunday school anniversary! The Standard article shows forcefully how wonderful has been the achievement of your Board. This combination with the Seminary excites me, because the outcome is so great!

I am getting excited about another matter. See my leading editorial of this week. What do you think of the matter under discussion? Shall I press it from one point & another? Another editorial will mention your views.

Sincerely, J. H. Prestidge.
