Dear Dr. Bergquist

When trouble threatens the "Seminary family" it makes us realize how much the Seminary and its leaders have meant to us and how little we express our appreciation. You have done so much for us. You have encouraged us when we lost courage and inspired us when faith was low. Through your help not only Frank but lots of "older" men have been able to attend Seminary who had dreamed of it for years and who wanted to go so badly. And you have made available the best faculty possible.

I have said all of this to the folks back home and wanted you to know that I am deeply grateful for you and for the Seminary.

Sincerely,
Venetta Kirkland
