QUESTIONS.

Lesson 1. What is the title? What is the motto text? Where did the events occur? About what time? Who are mentioned in the lesson? What are the facts of the lesson? What did Simon wish to buy of Peter and John? How did Peter rebuke him? What does the lesson teach us? Why?

Lesson 2. What is the title? What is the motto text? Time? Place? Persons? Events? Whom did Philip meet? What did Philip teach? What did the eunuch ask Philip to do for him? What was the effect on the eunuch? Teaching? Topic?

Lesson 3. Title? Motto text? Time? Place? Persons? Events? Who spoke? Saul? Why? What was Saul's mission? How was Saul changed? Topic?

Lesson 4. Title? Motto text? Time? Place? Persons? Events? How did Saul show his change of heart? What plot did the Jews lay? How did Paul escape?

Lesson 5. Title? Motto text? Time? Place? Persons? Events? At Lystra where did Paul meet? At Iconium where did Peter ride from the coast? What did the Jews do? (Ask the routine questions) Who sent for Peter that he might warn about Jesus? Who told him to do so? What did Peter preach when he came? What was the effect? What did Paul do? How did God send down on the Gentile believers? What was done to them the first time?

Lesson 7. (Routine questions) In what city did the early converts, who were sent first, first preach to the Gentiles? What were the converts called in that city for the first time? Who called a great work there? What was first established there? Lesson 8. (Routine questions) Who opened the prison door for Peter? (1 Peter 3:12) What do you suppose led to the deliverance? Who had been praying?

Lesson 9. (Routine questions) Who sent into the house of the lame man to him? Who opposed them? How was he punished? What do we learn? Lesson 10. (Routine questions) What did the Gentiles gladly receive? Why were the Jews angry? What did they do? What was the result?

Lesson 11. (Routine questions) What miracle did Paul work at Lystra? What did the lame man prepare to do? How did Paul and Barnabas respond to him? What was the probable effect of their declarations on priest and people? Lesson 12. (Routine questions) What was done to Paul? Where did the apostle go for his deliverance? What did he do towards organizing the new churches? What do we learn as to the democracy and independence of the first gospel churches? To whom did the missionaries report? What should we send out and support missions? What is the duty of gospel churches towards the heathen in foreign lands?

BIRD'S EYE VIEW OF THE LESSONS. Our quarterly lessons are a series of lessons of Christianity; and we have reached a well-marked period in its history—the return of Paul and Barnabas after their first missionary tour with this announcement: "The door of faith is opened to the Gentiles." In our first quarter's lesson we traced the rise and progress of the first Christian church in Jerusalem under the leadership of Peter; and the lessons of that quarter ended with the death of Stephen, the first martyr, by which the Christians at Jerusalem were scattered throughout the then known world. From that point the history of the extension of Christianity is taken up, and the effects of that dispersion are traced to the actual extension of the Christian religion throughout all the surrounding regions.

Let it be remembered that hitherto the gospel has been preached to Jews only. Of the Jews in China, India, Persia, and in Palestine; and 2. Jews born in foreign lands. Now the gospel is to be preached to all, and for this to be done it was necessary to break down Jewish prejudices and to convince the Jewish converts that the universal extension of Christianity was in accordance with the will of God that the will of partition between Jew and Gentile might be broken down. The dispersion led immediately and inevitably to the universal extension of the gospel. (See Acts 1:8.)

THE FIRST STEP. The first step then in a wider extension of the gospel was the mission to Samaria. (8:5) This itself was a grand discovery of the truth. The Jewish mind was not a mission from the conqueror to the conquered; the Samaritans were heathen in many of their religious rites and acknowledged the Pentateuch as the law of God; and an intense hatred between them and the Jews existed. And when Jew and Samaritan bowed together to Jesus in harmony and brotherly love, the death-knell of prejudice and race prejudice was sounded.

THE SECOND STEP may be seen in the story of the Ethiopian eunuch. There was taught the lesson that the gospel is to be preached to every one who is willing to hear it, no matter of what race or country; and another lesson was given to Jewish prejudice—the lesson was taught that the gospel belongs to every one who is willing to receive it. The eunuch's conversion led no doubt to the introduction of the gospel into interior Africa.

THE THIRD STEP. Paul's conversion and the mission to Damascus. (Chap. 9.) While this led to a much wider extension of the gospel, it had definite and important consequences. For spreading the gospel among the Gentiles just such a man as Paul was needed—an educated man of Jewish origin and sympathies and acceptable to the Gentiles. Paul was a Jew, and he was acquainted with the Greek language and with Greek customs and modes of thought. Saul was indeed a magnificent instrument for the world's evangelization, miraculously converted and chosen in Jerusalem to be the feet of Jesus; divinely taught and trained for the championship of the faith of the gospel among the heathen; and by repeated rejections by the Jews at last converted that he was in truth the chosen apostle to the Gentiles.

THE FOURTH STEP—the conversion of Peter to the world-wide extent of Christian Kingdom. This was the result of his "miraculous" healing of the lame man at Jerusalem. This was the result of his "miraculous" healing of the lame man at Jerusalem. This was the result of his "miraculous" healing of the lame man at Jerusalem.

conversion of the Spirit upon converted Gentiles. The gospel was proclaimed to all nations. The tenth chapter gives an account of this mission, and the story of the conversion of which was that not only the apostles, but the Jewish Christians were brought into full sympathy with world-evangelization, as we learn in chapter 11.

THE FIFTH STEP—the actual establishment of a Gentile church in Antioch, Syria. While all these events have been going on, certain converted Gentile Jews, who had fled from Jerusalem at the dispersion, journeyed to Antioch, and with the true missionary spirit, preached to both Jews and Gentiles with surprising effect. Even the Jerusalem Christians were sent a messenger of inquiry, are convinced of the genuineness of the work, and there the first Gentile church was established. Henceforth the center of evangelial influence and operations is moved from Jerusalem to Antioch, and from Antioch into the background, giving place to the great Paul; but that Peter occupied a prominent and useful position, we are plainly informed in chapter 12 where his prominence is again marked for the first time.

THE SIXTH STEP—the formal inauguration of foreign missions. With an inspired zeal and fervor the church at Antioch sends out four foreign missionaries, Barnabas and Saul, with the explicit desire to claim all heathendom for Christ; and thus in the first missionary tour of the great apostle to the Gentiles culminates the wondrous leadings of Providence towards the grand idea that the gospel is for all the world, that it is not a national or Jewish religion; and that the power of Jesus' name is and shall be irresistible among the nations of earth.

THE SEVENTH STEP—the formal inauguration of foreign missions. With an inspired zeal and fervor the church at Antioch sends out four foreign missionaries, Barnabas and Saul, with the explicit desire to claim all heathendom for Christ; and thus in the first missionary tour of the great apostle to the Gentiles culminates the wondrous leadings of Providence towards the grand idea that the gospel is for all the world, that it is not a national or Jewish religion; and that the power of Jesus' name is and shall be irresistible among the nations of earth.

Correspondence.

Rev. R. Noel.

This brother resides in Lancaster, Ky. is a member of the Baptist church in said town, and connected with the school. Dear Brother, I have a student at Georgetown College, his health gave way, and he was compelled to leave the institution. He married soon after and became a farmer. During this time he recovered his health, and having entered college with a view of trying to preach the gospel, when he finished his course, he felt it his duty, after recovering his health, to return to the work of the ministry. In a series of meetings held in his town, he was much revived in his religious feelings, and determined to sell his farm and engage fully in the work of the Master. The church in Lancaster, at this time, was without a pastor; hence, the brethren at once called on Bro Noel to preach for them twice a month, which he very kindly consented to do. During the first year of his pastorate the church called for his ordination; and I am happy to say that the church soon became prosperous under his ministry.

A Word of Encouragement from an Old Friend.

In April 1867 I was arrested in July, Mt Zion church, in Ohio county, Ky, licensed me to preach; and shortly afterwards, I was appointed to read an essay at the Ministers and Deacons' Meeting of Gasper River Association, on the subject of prayer.

In that essay I had occasion to use some "big words," which, as I now recall them, seem quite awkward to me. When the essay was up for criticism, I shall never forget what Bro H. B. Wiggins, now of New York, had to say. He said "he liked the essay very well; but the young brother had used some rather long and difficult words, and he would tell him kindly that it is always best to speak and write to use the plainest words, such as are the easiest and most readily understood." A good many years have passed since that time, and I have had considerable experience in speaking and writing, and I have forgotten the very sensible advice of Bro Wiggins. He was my friend then, and the following extract from a letter just received from him shows his deep interest in the cause here.

I presume you need all the faith, patience, and other qualifications in Evansville that a gospel preacher needs for any other locality. But the faithful preacher of the gospel need never despair, for it ever has been, and ever will be, the power of God unto salvation. The evidence of this truth is more abundant than that it is to day. The success which has attended the preaching of the gospel among almost all nations the past year is more abundant than that it is to day. The success which has attended the preaching of the gospel among almost all nations the past year is more abundant than that it is to day.

Bro H. B. Wiggins, J. P. Austin, and others of old Gasper River Association, were the friends who helped and encouraged me in my struggle when a poor boy to acquire an education, and I shall always cherish for them the most affectionate regards. Bro Taylor, who baptized me, has been gone to his reward; Bro Austin is in broken and very feeble health. Bro Wiggins is doing remarkably well in New York city, and Bro Coleman is well known in the country where he has always lived.

Memories of early acquaintance with Bro Wiggins and of his kindness to me have been recalled and quickened by the marriage of his only daughter to Mr. John Hubbard, an old school mate of mine, who will know me as a merchant of the city, and a member of my church. She has taken hold earnestly in the Sunday-school, and is a valuable helper in that department of work.

The word of encouragement in the letter I hope will be blessed to the good of others, and I therefore offer it for publication. "The preacher of the gospel should never despair," and I hope the assurance of the divine presence, and that the word of the Lord shall not return void to all who call on the name of God to be faithful to the end.

The dying message of my father, "Tell Allan to be faithful," often comes to me, and many are the times I have vowed, "By the grace of God I will be faithful;" and I do desire, above all things, so to live and work, that when the inevitable change comes, I may hear my blessed Lord say, "Well done, good and faithful servant."

THE MAJORITY REPORT. Dr. Strong then read the following majority report, announced at the meeting of this convention, the Bible work of Baptists should be done by our own existing institutions, and no new ones may be effected in this country. Let the American and Foreign Bible Society join its agencies with their counterparts in this country, and meet in Cincinnati in November next. He urged hearty co-operation in Bible work, and that thought it could be done through the agency and aid of a Bible convention.

TWO REPORTS SUBMITTED. Dr. Armstrong, of New York, Chairman of the Committee on Business and Finance, announced that the committee was ready to submit a report. He said that the committee was not unanimous, and that Messrs. Hoyt, Dunham, and Austin were the majority report, and Messrs. Armstrong and Parry in a minority report.

Dr. Strong then read the following majority report, announced at the meeting of this convention, the Bible work of Baptists should be done by our own existing institutions, and no new ones may be effected in this country. Let the American and Foreign Bible Society join its agencies with their counterparts in this country, and meet in Cincinnati in November next. He urged hearty co-operation in Bible work, and that thought it could be done through the agency and aid of a Bible convention.

Kentucky Items.

Two million bushels of corn have passed down the Ohio this week. **Hay is now bringing \$3.50** at Lexington. **A farmer in Hickman county** will put in 100 acres of corn. **The seven says** that little hemp will be in Fayette county this month. **Forty counties in Kentucky** have not a sheep, with the exception of...

A farmer says that repeated experiments had shown that the best method of raising labor was by killing, but produce heavier crops of equally good quality, and this whether the season be wet or dry. **It may be** that his industry on his garden all day long, and an indolent one on the porch will get up only one bushel morning and under the work in fifteen minutes by the clock. **An exchange says** John Frost, Chase county, Kansas, has a cow but two years old, which weighs 2,300 pounds and is still growing. **The New York Journal of Commerce** says that the total value of the States have 114,000 miles of completed railroad, and Europe has 120,000 miles.

The thirteenth annual report of the Board of Trustees and Officers of the Soldiers' and Sailors' Orphan Homes located at Xenia, Greene County, Ohio, for the year 1892, shows that 196 were admitted and 121 discharged for 1891-92. Only 3 died during the year. **An ingenious Virginia woman** has discovered that saturating the hog containing her feed with coal oil utterly exterminates the weevil beetle and out of the barn, but it did not harm the soil in the least. Probably the same treatment would serve with infested peas. This certainly is a much quicker and more satisfactory way of overcoming the difficulty than getting up the culture of beans and peas for a year or two, as recommended by Professor Laidlaw. **The Weekly Railroad says:** "The statistics of the United States prove that hay is among the foremost crops raised in this country, if not the very first. At the present time there are estimated to be in the United States 40,000,000 sheep, 40,000,000 cattle and 20,000,000 hogs. In two thirds of the country these animals require to be fed from 3 to 6 months of the year. It will consume an aggregate of 90,000,000 tons which is about 100,000,000 bushels of hay. This represents the enormous sum of \$450,000,000. It is not hay, therefore, king?" **GET THE ORIGINAL—Dr. Pierce's "Pillars"—the original "Little Blue Pills" (sugar-coated)—cure sick and bilious heads, sour stomach, and bilious attacks. By drugging.** **In Ohio the farmers** have abandoned the old plan of working out the road tax. The roads are kept in repair by contract, and the result is much better roadways, really costing no more money than under the old system. The same is the case in Pennsylvania, some time ago recommended. It is based on common sense. A farmer in Illinois is said to have lost \$2,500 on his crop of 15,000 bushels of corn a year ago, because of the impossibility of hauling it. When the price was high, through the three miles of mud between his farm and the railroad station. **The kind of fodder a dairy cow** requires is that which makes the greatest amount of milk and keeps the cow in good health. The latter, however, depends somewhat on treatment, such as feeding, good bedding, and a sufficient variety of food, have a close relation to health. **DR. PIERCE'S Favorite Prescription**, for all such weaknesses peculiar to women, is an unequalled remedy. Distinguishing backache and "bearing-downs" sensations yield to its strength-giving properties. By drugging. **SPOROUS WORMS—The Textile** industry is that marvellous how cheap and wool-growing have increased in this country within the past fifteen or twenty years. In 1880 there were only 2,000,000 sheep in the United States. Now there are 40,000,000. It is estimated to be nearly 300,000,000 pounds—an increase within the period of over two-fold of sheep and five-fold in the production of wool, giving unmistakable evidence of our advance in this industry. **CABBAGES—Our farmers do not** have nearly enough carrots. They make a horrible mistake very likely. They should have good depth of soil and fine till. Our farmers' wives do not fully appreciate the value of the carrot in cooking. Indeed, the value of the carrot is not acquired one. So is that for instance. So is that for parsnips. The writer remembers that he was obliged to cultivate a liking for green peas, such as they were, the many, strong marrow, which he wondered at. But the carrot, far more, was liked, is a valuable addition to meats, to gravies, and to soups. The French and Germans use it largely. The Queen of England always has carrots and turnips cooked with her boiled mutton. **A WORD FOR MUTTON.—The Commercial** farmer says the mutton is a kind of sheep of every breed from the Downs and Shires down to the little woolly Saxons, is palatable and healthful. None of the objections urged against the use of pork can be brought against that of mutton. It never has been known to impart acrida, trichina, or tape-worms to its consumers. The sheep does not thrive in the mire, nor does it consume garbage or vermin, or decaying meats or vegetables. It does not walk in the trough if feeds from, and it is a dainty and careful feeder, and as cleanly as needs to be in its habits. Mutton is more cheaply and easily produced than beef, is just as nutritious, and may be served in as great a variety of forms. As a steady food it is far superior to poultry, and costs no more; that is, good fat, juicy mutton, not that from the half-starved specimens that have cultivated their breeding life and been short of food enough to furnish shabby carcasses for a tribe of Indians. People in this section seldom know really good mutton, and the remark may also apply to most families on the farm. The latter too often fail to try it. Well-to-do farmers, men who have well-cared farms, do not slaughter a sheep during a twelve-month, they kill a pig every month in the summer months, and it is a nation of meat-eaters, but it confines itself too exclusively to pork and beef. It is better to send in a little more mutton. A few sheep for family consumption, or even when they are not kept for the wool, will be found a most excellent investment on all farms. **Herrick's Acid Phosphate** FOR NEUROGENESIS. **DR. H. N. D. PARKER, Chicago** says: "I have thoroughly tested it in various cases, and in every case could see great benefit from its use."

A World's View.

THE VARIOUS REPRESENTATION OF A SOCIETY OF THE WESTERN RECORDERS OF THE YEAR AND

To the Editors:
The following observations, drawn from my personal experience, are so important and really remarkable that I have felt called upon to make them public. Their truth can be easily verified.
In 1874 I moved from Canton, St. Lawrence county, N. Y., to Florida, which State I intended to make my future residence. I selected a house on the banks of the St. John's river and settled down, as I thought, for life. The summer following I had a violent attack of dysentery, which continued for several months and was accompanied by occasional diarrhoea and nausea. My food was all the while very unpalatable, and I had a constant feeling of weakness. I had a blister for my back and my appetite was such that I could not eat. At last I thought I was the object of nature to become insane, and I thought of life. But my troubles increased until I became restless and nervous, and the physicians and physicians were all the while in vain. In the year 1880 my physicians informed me of a change of climate was absolutely necessary—that I could not survive another winter in the South. I determined to return North but not to the extensive prairie and on I took my residence at Upper Sandusky in Central Ohio. The change did not work the desired cure, and I again moved to a permanent home, and when the summer was well advanced I found they were unable to effect a permanent cure, and when the summer was well advanced I found they were unable to effect a permanent cure, and when the summer was well advanced I found they were unable to effect a permanent cure.

THE AMERICAN BANKERS' ASSOCIATION recently at New York, and announced its intention to hold the next annual convention at Louisville, October 9 and 10. The several years the association has been held at Saratoga, but the rapid growth of the banking and industrial interests of Louisville made it a necessity for the convention to be held this year at Louisville.

THE UNITED STATES COURT at Frankfort, Kentucky, June 11th, held a trial, because the United States Treasury had failed to furnish sufficient money to conduct the trial. THE FOLLOWING IS FROM THE PROGRAMME, THE REPUBLICAN PARTY published at Bowling Green, Ky. - We are not in sympathy with the present political situation. It is a disgrace to the land, ground of professional ability and skill, to exchange opinions on medical matters.
