PREFACE

The Southern Baptist Periodical Index - 1966 is a continuation of the project initiated in 1965 at the request of the Inter-Agency Council for compiling a comprehensive index to articles appearing in the periodicals published by the Agencies of the Southern Baptist Convention. The same plan has been followed in this edition as in the volume issued last year of the 1965 periodicals, i. e., each agency has indexed its own periodicals, and the Historical Commission has served as co-ordinator of the joint project.

Eighteen agencies of the Southern Baptist Convention have co-operated in this project to produce a comprehensive author and subject index to the 1966 issues of thirty-five periodicals. The names of the periodicals, and the publishers, are listed on the following pages. It is gratifying to note that in addition to the three periodicals added to those in the first edition, a request has come for including in the next index certain Baptist periodicals that are not published by Southern Baptist agencies. This indicates the recognized value of the Index as a reference tool for editors, writers, and researchers interested in locating materials published in Baptist periodicals.

Every effort has been made to produce an Index with a minimum of errors, but it is impossible to avoid some inaccuracies in a project of this dimension. The accurracy of the indexers has been relied upon for the correct notation of bibliographic details.

Appreciation is expressed to the editors of the co-operating periodicals for their assistance in this project, and to their staff members who indexed the periodicals. Special recognition is given to the Dargan-Carver Library staff who assisted in collating the index cards, and in typing and proofreading the manuscript. The reception accorded the first volume of the Index has been an encouragement to all who have had a part in producing this second volume. It is hoped that there will be a growing appreciation for tools of this kind.
