PREFACE

The Southern Baptist Periodical Index - 1968 is a continuation of the project initiated in 1965 at the request of the Inter-Agency Council for compiling a comprehensive index to articles appearing in the periodicals published by the Agencies of the Southern Baptist Convention. The same plan has been followed in this edition as in previous volumes, i.e., each agency has indexed its own periodicals, and the Historical Commission has served as co-ordinator of the joint project.

Nineteen agencies of the Southern Baptist Convention have co-operated in this project to produce a comprehensive author and subject index to the 1968 issues of thirty-six periodicals. The names of the periodicals, and the publishers, are listed on the following pages. Report from the Capital, published by the Baptist Joint Committee on Public Affairs, is included in the Periodical Index this year for the first time. A request has come for including in the Index certain Baptist periodicals that are not published by Southern Baptist agencies. In an effort to fulfill this request and still keep the project within the scope of Southern Baptist agency periodicals, a bibliography of Baptist-related articles appearing in the 1967 issues of non-Convention agency periodicals has been compiled and published in the July, 1968, issue of Baptist History and Heritage. Thus author and subject entries to the articles in the bibliography are included in the Southern Baptist Periodical Index - 1968.

Every effort has been made to produce an Index with a minimum of errors, but it is impossible to avoid some inaccuracies in a project of this dimension. The accuracy of the indexers has been relied upon for the correct notation of bibliographic details.

Appreciation is expressed to the editors of the co-operating periodicals for their assistance and to their staff members who indexed the periodicals. The reception accorded the three previous volumes of the Index has been an encouragement to all who have had a part in producing this fourth volume. It is hoped that there will be a growing appreciation for this reference tool.

USING THE INDEX

ARRANGEMENT

Authors and subjects are arranged in one alphabet. Title entries are not included in the main alphabetical arrangement but appear only as sub-entries under subject and author entries.

The index includes the general articles in 36 periodicals. Book reviews, news notes, and brief articles of limited interest are not included.

Anthems, hymns, and songs are listed by title under the subject heading: ANTHEMS, HYMNS, AND SONGS.

Page references are to the initial page of an article, or to the particular page on which the subject indexed appears.

CROSS REFERENCES

"SEE" references direct the user from various forms of entries to the main entry. The index also includes "SEE ALSO" references to related subjects under which additional material may be found.
