PREFACE

The Southern Baptist Periodical Index - 1970 is a continuation of the project initiated in 1965 at the request of the Inter-Agency Council for compiling a comprehensive index to articles appearing in the periodicals published by the agencies of the Southern Baptist Convention. The same plan has been followed in this edition as in previous volumes, i.e., each agency has indexed its own periodicals, and the Historical Commission has served as coordinator of the joint project.

Eighteen agencies of the Southern Baptist Convention have cooperated in this project to produce a comprehensive author and subject index to the 1970 issues of fifty-seven periodicals. The names of the periodicals, and the publishers, are listed on the following pages. New titles appearing in this volume include the following periodicals begun in 1970: Outreach, Preschool Leadership, Children's Leadership, Youth Leadership, Adult Leadership, People, The Deacon, Proclaim, Search, and Collage, published by the Sunday School Board; Start, Aware, Discovery, Accent, Contempo, and Dimension, published by Woman's Missionary Union; and Brotherhood Builder, Probe (Leadership Edition), Crusader, and Crusader Counselor, published by the Brotherhood Commission. A bibliography of Baptist-related articles appearing in the 1969 issues of nonagency periodicals has been compiled and published in the Oct., 1970 issue of Baptist History and Heritage. Thus author and subject entries to the articles in the bibliography are included in the Southern Baptist Periodical Index - 1970.

Every effort has been made to produce an Index with a minimum of errors, but it is impossible to avoid some inaccuracies in a project of this dimension. The accuracy of the indexers has been relied upon for the correct notation of bibliographic details.

Appreciation is expressed to the editors of the cooperating periodicals for their assistance and to their staff members who indexed the periodicals. The reception accorded the five previous volumes of the Index has been an encouragement to all who have had a part in producing this sixth volume. It is hoped that there will be a growing appreciation for this reference tool.
