PREFACE

The Southern Baptist Periodical Index - 1972 is a continuation of the project initiated in 1965 at the request of the Inter-Agency Council for compiling a comprehensive index to articles appearing in the periodicals published by the agencies of the Southern Baptist Convention. The same plan has been followed in this edition as in previous volumes, i.e., each agency has indexed its own periodicals, and the Historical Commission has served as coordinator of the joint project.

Seventeen agencies of the Southern Baptist Convention have cooperated in this project to produce a comprehensive author and subject index to the 1972 issues of forty-eight periodicals. The names of the periodicals, and the publishers, are listed on the following pages. A bibliography of Baptist-related articles appearing in the 1971 issues of nonagency periodicals has been compiled and published in the October, 1972 issue of *Baptist History and Heritage*. Thus, author and subject entries to the articles in the bibliography are included in the *Southern Baptist Periodical Index - 1972*.

Every effort has been made to produce an *Index* with a minimum of errors, but it is impossible to avoid some inaccuracies in a project of this dimension. The accuracy of the indexers has been relied upon for the correct notation of bibliographic details.

Appreciation is expressed to the editors of the cooperating periodicals for their assistance and to their staff members who indexed the periodicals. The reception accorded the seven previous volumes of the *Index* has been an encouragement to all who have had a part in producing this eighth volume. It is hoped that there will be a growing appreciation for this reference tool.

USING THE INDEX

ARRANGEMENT

Authors and subjects are arranged in one alphabet. Title entries are not included in the main alphabetical arrangement but appear only as sub-entries under subject and author entries.

The index includes the general articles in 48 periodicals. Book reviews, news notes, and brief articles of limited interest are not included.

Anthems, hymns, and songs are listed by title under the subject heading: ANTHEMS, HYMNS, AND SONGS.

Page references are to the initial page of an article, or to the particular page on which the subject indexed appears.

CROSS REFERENCES

"SEE" references direct the user from various forms of entries to the main entry. The index also includes "SEE also" references to related subjects under which additional material may be found.
